

# SDS Management Made Easy.

---

sdsBinders by Chemscape Safety Technologies, is a mobile system that actively manages your chemicals and allows you to access current and accurate SDSs for your business.

# sdsBinders is the most powerful SDS management system on the market today.

---

## By choosing sdsBinders:

- You will have immediate access to **current SDS** & chemical safety information.
- Your workers will have the information they need to protect their health and safety.
- You will have a solid foundation for chemical handling and SDS compliance.
- You will **save time with SDS Management** and be more productive.

## Industry-Leading & Award-Winning Solution

---

sdsBinders is designed by a **Certified Industrial Hygienist** who has authored over 10,000 SDSs. sdsBinders has been named the Canadian Occupational Safety Magazine's Readers' Choice For Best SDS Management Solution every year since the award's inception.

## Protecting Worker Health Since 2003

We strive to not only manage your Safety Data Sheets but improve your Hazard Communication and awareness of Health Hazards in your organization. sdsBinders educates and empowers workers with a greater level of occupational health knowledge and provide tools to minimize risk when working with chemicals.

**98%**  
**Client  
Retention  
Rate**

---

sdsBinders invests in building successful client relationships resulting in an **exceptionally high client retention rate**. Our system is simple and scalable for small companies to international organizations with hundreds of work sites and thousands of employees.

## **Built for the Way You Work**

---

sdsBinders allows you to **organize your SDS library according to how your business operates** with separate binders and sub-binders for your business units, locations or work process. Change the binder structure as often as you want at no additional cost.

### **Immediate Access To Chemical Safety Information**

Access SDSs whenever you want online from your sdsBinders portal. Employees and contractors can use the sdsBinders mobile App to find SDSs wherever, whenever. Save time finding SDSs with a clutter free SDS database with only the SDSs you need. **Access your SDSs 24/7** and have confidence in the compliance of your SDS inventory.

# Easy to Find

---

sdsBinders makes it fast and easy for your workers to find the exact information they need.

**If your workers know how to use Google, they know how to use sdsBinders.**

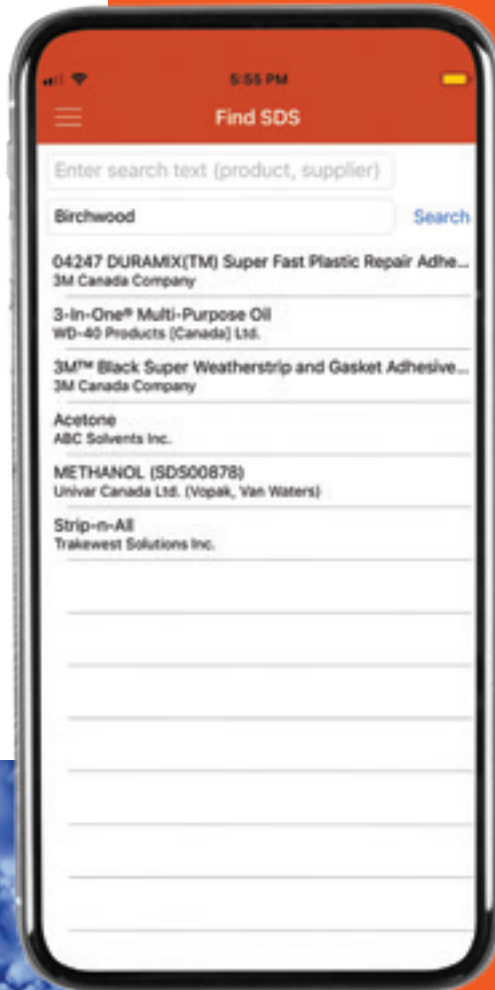

Competitors' systems are clogged with duplicate and expired SDSs. This wastes time for workers and causes confusion. In sdsBinders use only the SDSs you need.

# Easy to Share

---

Do you need to supply chemical safety information to customers or contractors? sdsBinders makes it simple for you to share SDSs by setting up a **secure custom binder link** for the people who need it.

# Easy to Print

---

Sometimes your workers may need access to paper copies of SDSs. You can save and print all your SDS documents if required in a matter of seconds.

# Access Chemical Safety Education for Your Worksite

sdsBinders provides clients with a **library of chemical safety education** that includes over 30 titles such as: Don't Take Home Contaminants, Eye Safety, Respirator Use, Benzene, Asbestos, Diesel Exhaust, Kidneys and Chemicals, and Occupational Lung Disease. **You receive a new education video each month!**

## Communicate Your Health Hazards and Controls

sdsBinders provides tools like **GHS workplace labels and SmartChart® posters** to communicate the hazards of your chemical inventory. SmartChart posters summarize the main health hazard information of an SDS and can be displayed on safety bulletin boards and chemical storage areas.

## Save time on Regulatory Reporting

Regulatory reporting can be one of the most time consuming and complex challenges in managing hazardous chemicals. Current clients find the time they save doing regulatory reporting using sdsBinders alone is a clear-cut benefit that **reduces the time for a routine task from months to mere minutes.**

## Easy to Stay Compliant

---

SDSs are not permanent. When information changes sdsBinders does the work for you to **track down new SDS information with chemical suppliers** and adds this information to your database. sdsBinders makes it effortless for you to stay compliant.

## Easy to Learn & Get Support

---

Our clients consistently report that sdsBinders is intuitive and easy-to-learn. When you first sign on to sdsBinders we provide a **full training program for your administrator along with annual refresher sessions**. We also provide webinars and videos that walk you through different aspects of the system step by step.

If you ever have a question, **send us an email or give us a call**. We love to speak with our clients.

**“Chemscape software has taken the worst part of my OHS system and instantly made it**

**the best”**

## Testimonials

*“sdsBinders is a wonderful product that not only saved me a ton of time, but also ensures accuracy of our reports. The reporting tool is only a fraction of what this product offers – it also keeps our SDSs up to date and comes with a free app that folks in the field can download on their phones and still use even if they are in remote areas or without network service. There are informative safety videos and PowerPoint presentations that are useful for safety meetings. They also provide necessary functions like the ability to create labels for containers, as well as printing off SmartCharts which summarize product uses and PPE requirements. Not to mention, the excellent customer service that we have been receiving since day 1 from our Account Manager.”*

**Susan Tran, Bellatrix Exploration**  
Environment, Safety, and Regulatory

*Chemscape’s sdsBinders online program takes all the stress away from chemical management. Your SDS forms and chemical inventory are on-line, organized, and readily accessible, via computer, tablet, or mobile app. Your SDS sheets are always updated and organized. You can bring up the details you need instantly on their mobile app. Quit digging through piles of SDS sheets to find what you need in a safety incident. The customer service and support from Chemscape staff is second to none. Free training and customer support is always available. Do yourself a favour and switch to the best SDS software on the market. Switching to the Chemscape software has taken the worst part of my OHS system and instantly made it the best.*
