

# 5 Elements of HazCom Compliance: Manage with Chemscape's sdsBinders and expertise.

1

## CHEMICAL INVENTORY

Employers need to keep a physical inventory of chemicals.

**sdsBinders** stores and prints a record of your chemicals by location.

3

## LABELS

All containers of hazardous materials need to be labeled.

**sdsBinders** creates labels to replace damaged labels or to label portable or temporary containers.

2

## SAFETY DATA SHEETS

An up-to-date SDS for each chemical needs to be accessible to employees.

**sdsBinders** stores your SDSs and keeps them up-to-date. Worker's access SDSs 24/7 from phone, tablet or laptop.

4

## WRITTEN PLAN

A written plan needs to be created if chemicals are produced or handled at your worksite.

**Chemscape's** experts can help you create a written plan.

5

## EMPLOYEE TRAINING

Employees who handle hazardous materials in the workplace need HazCom training.

**sdsBinders** offers an online HazCom course to get employees certified with chemical safety education.

Make an Impact on your Health & Safety team with Chemscape's sdsBinders - the SDS Management tool designed by Industrial Hygienists
